Unimaster® Dust Collectors
The Unimaster® dust collector from Donaldson® Torit® is designed to maximize dust collection and the life of collector components for years of extended service. In production for over 40 years with hundreds of thousands in use worldwide, the Unimaster collector’s compact design and quiet operation is an industry success. Yet, Donaldson Torit is continually improving the Unimaster to ensure that it provides efficient, trouble-free service.

A self-contained collector with everything needed to begin collecting dust, the Unimaster comes complete with fan and fan motor, automatic shaker and shaker motor, and system controller making installation quick and easy. Since the automatic shaker cleans the filter bags, there is no need for expensive compressed air. Ideal for intermittent operations in plant processes, the Unimaster can be used as a central system or at the point of dust generation.

Unimaster Offers:

- **Compact design** Minimizes floor space and fits in virtually any plant layout.
- **Versatility** Three configurations to suit a variety of dust collection applications.
- **Broad range** Offering maximum air handling capacity in a compact design, the Unimaster offers filtration media area from 40 to 750 square feet.
- **Quiet & efficient operation** Motors and fan are enclosed in collector housing to minimize noise.
- **Easy maintenance**
- **10-year warranty**

**Filtration Engineered for Performance**

The Unimaster® dust collector from Donaldson® Torit® is designed to maximize dust collection and the life of collector components for years of extended service. In production for over 40 years with hundreds of thousands in use worldwide, the Unimaster collector’s compact design and quiet operation is an industry success. Yet, Donaldson Torit is continually improving the Unimaster to ensure that it provides efficient, trouble-free service.

A self-contained collector with everything needed to begin collecting dust, the Unimaster comes complete with fan and fan motor, automatic shaker and shaker motor, and system controller making installation quick and easy. Since the automatic shaker cleans the filter bags, there is no need for expensive compressed air. Ideal for intermittent operations in plant processes, the Unimaster can be used as a central system or at the point of dust generation.
**Unimaster Performance**

- **Perforated inlet deflector** knocks down larger particles into the hopper reducing bag abrasion and increasing filter bag life.

- **Quick-release lever** allows for easy removal and maintenance of bin.

- **Heavy-duty flexible metal coils** inserted into filter bags keeps bags open to maximize airflow and assist in knocking dust off during cleaning cycle.

- **Bag-release levers** allow for easy removal of bags.

* Based on clean filter.
** UMA 40 uses one 0.75 cu ft bin; UMA 70 uses one or two 3 cu ft bins (for 3 cu ft bin, add 9-in to height); UMA 100-250 uses one 3 cu ft bin; and UMA 450-750 uses two 3 cu ft bins.

55-gallon drum base available on UMA 150-750. UMA 150-250 uses one drum and UMA 450-750 uses two drums (drums not included).

* Sound ratings on UMA 40, 70, 80, 150 and 450 are with the largest available fan. UMA 250 sound rating is with 5 HP K7 fan. UMA 750 sound rating is estimated for the 30 hp TBI fan. For specific fan models, contact Donaldson Torit.

** Acoustic diffuser (silencer) is standard on UMA 70, 100, 150, 250, 450 and 750.

Above dB(A) sound levels are an average of measurements taken in a normal industrial area. Sound levels were taken in accordance with Reference Standard ISO 3746:1995, Survey Method, Grade 3. Installed sound levels may vary depending upon measurement location, operating conditions, and installations.
**Flexible Power Offerings** The Unimaster offers a variety of power packs to better meet your precise needs. The system performance graphs below show available static performance at the collector inlet with clean filters.
**Unimaster**

**Standard Features & Equipment Options**

**Collector Design**
- Integral Fan and Fan Motor  
- Integral TENV Shaker Motor  
- Acoustic Diffuser Silencer (70-750)  
- Acoustic Diffuser Silencer (40)  
- Caster Pack  
- Weatherhood (Weatherbend) Roof  
- Various Inlet Locations

**Filter Bags**
- 8 oz. Polyester One-Piece Filter Bags  
- Anti-Static Filter Bags  
- Variety of Bag Media Options

**Paint System**
- Blue Powder Coat Finish (inside and out) Meets 350-Hour Spray Corrosion Protection Test  
- Custom Color

**Hopper Discharge**
- Bin Base with Quick Release Lever  
- 55-Gallon Drum Base  
- Bin Vent Base

**Electrical Controls, Gauges and Enclosures**
- Push-Button Controls  
- Solid-State Timer in Type (NEMA /UL)  
- Motor Starter  
- Magnehelic®* Gauge

**Safety Features**
- Explosion Vents  
- Sprinkler Taps

**Warranty**
- 10-Year Warranty

---

**Proven Performance on Hundreds of Applications**

- **UMA 450**
  - filtering plastic from a CNC machine

- **UMA 250**
  - on a school wood shop application

---

Better Technology

- 550 engineers worldwide
- More than 500 patents held by Donaldson employees
- Custom designed solutions

Knowledgeable Service

- Broad range of innovative collectors and filters
- Ready-to-ship filters and parts within 48 hours
- Technical expertise and support

Global Support

- Facilities in 35 countries
- 37 manufacturing plants and 11 distribution centers
- 49 sales offices worldwide
